

RIGGUY NEW PRODUCTS

We at Rigguy, Inc are always interested in filling "gaps" in what is available for professional arborists. Some of these new products are not big enough sellers for the major catalogue/online distributors to carry but when you need them – you need them. We are also able to fashion one of a kind hardware needs for special cabling and bracing needs – just email or give us a call steve@rigguy.com • 760-340-1288.

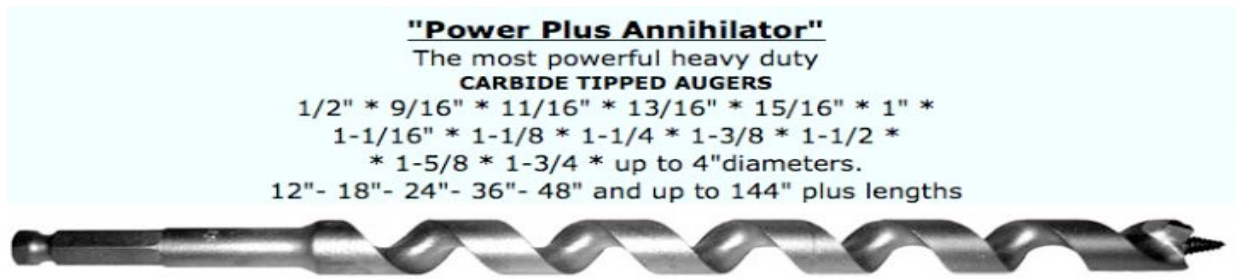

- ◆ HUBS 3-4-&5 way

- ◆ BRACING HUBS 2-3-4 way

- ◆ AUGERS (can be special ordered almost any length & are rebuild able)

- ◆ AXAROON – For moving fallen logs and cleaning dirty wood before cutting.

- ◆ BEVELED WASHERS – to give Wire Stops a flat surface on slanted installations.
